MEMORANDUM FOR THE IAC

SUBJECT: Draft Reply to SD/MICC regarding SHAPE Request for  
a Weekly Estimate of Indications of Soviet Military  
Aggression

1. The Watch Committee at its meetings of 22 and 29 June considered the request of General Schweizer, Assistant Chief of Staff, Intelligence, SHAPE, for a weekly estimate of the indications of Soviet military aggression and the related request by Col. Broyles, Chief, Army Section, SD/MICC, that the IAC consider releasing to SHAPE and to SACLANT the conclusions of the Watch Committee Report or a sanitized version thereof.
2. The Watch Committee has ascertained that SHAPE now receives by cable through SD/MICC each Thursday all the information in the Watch Committee Report which is considered to be releasable. The conclusions of the Watch Committee Report are not included in this cable and were not considered by the Watch Committee to be releasable.
3. Accordingly, the Watch Committee recommends that replies be made to SHAPE and SACLANT Headquarters noting their requests and stating that intelligence material pertinent to their requests will continue to be furnished them as it has been in the past. A draft reply is attached.
